

The aim of the photo campaign Object: Riga at Night organised on 2 June 2006 is to show Riga at night in all its diversity from the centre to the suburb avoiding social morals, a deliberate criminal tinge or nostalgic aspirations. This time darkness helps to see people, buildings and courtyards in another light.

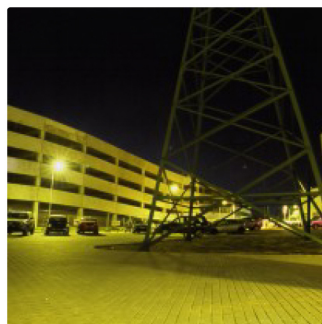

As many as 46 participants, who are not discouraged by darkness, slide format and unpredictable scenes, take part in the campaign. The campaign produced copious and interesting photo materials showing one night in the urban life of Riga.
